

## MATERNAL & CHILD HEALTH (MCH) MEASURES

| Title V - MCH National Performance Measures  | State<br>2004<br>Results | State<br>2009<br>Goal |
|--|--------------------------|-----------------------|
| The percent of newborns who are screened and confirmed with condition(s) mandated by their State-sponsored newborn screening programs (e.g. phenylketonuria and hemoglobinopathies) who receive appropriate follow up as defined by their State. | NaN%                     | 0%                    |
| The percent of children with special health care needs age 0 to 18 who receive coordinated, ongoing, comprehensive care within a medical home. (CSHCN Survey)  | 57.0%                    | 90%                   |
| Percent of children with special health care needs age 0 to 18 whose families report the community-based service systems are organized so they can use them easily. (CSHCN Survey)   | 14.0%                    | 50%                   |
| Percent of 19 to 35 month olds who have received full schedule of age appropriate immunizations against Measles, Mumps, Rubella, Polio, Diphtheria, Tetanus, Pertussis, Haemophilus Influenza, and Hepatitis B.                                  | 42.6%                    | 90%                   |
| The rate of birth (per 1,000) for teenagers aged 15 through 17 years.  | 30.9                     | 65                    |
| The rate of deaths to children aged 14 years and younger caused by motor vehicle crashes per 100,000 children.   | 6.9                      | 8.5                   |
| Percentage of mothers who breastfeed their infants at hospital discharge.  | 60.8%                    | 90%                   |
| Percentage of newborns who have been screened for hearing before hospital discharge.   | NaN%                     | 20%                   |
| The percent of very low birth weight infants among all live births.  | 0.5%                     | 0.6%                  |
| Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester.  | 20.1%                    | 32%                   |
| Title V - MCH National Outcome Measures  | State<br>2004<br>Results | State<br>2009<br>Goal |
| The infant mortality rate per 1,000 live births.   | 17.4                     | 30                    |
| The ratio of the black infant mortality rate to the white infant mortality rate.   | NaN                      | *                     |
| The neonatal mortality rate per 1,000 live births.   | 13.3                     | 15                    |
| The postneonatal mortality rate per 1,000 live births.   | 4.6                      | 8                     |
| The perinatal mortality rate per 1,000 live births plus fetal deaths.  | 40.2                     | 50                    |
| The child death rate per 100,000 children aged 1 through 14.   | 58.9                     | 70                    |
| Title V - Selected MCH State Performance Measures  | State<br>2004<br>Results | State<br>2009<br>Goal |
| The percent of women receiving services in the MCH Programs who receive a Pap smear.   | 27.3%                    | 50%                   |
| Percent of children with special needs who have a completed reevaluation by the CSN team within the last 12 months.  | 54.0%                    | 75%                   |

**State Population: 108,105**  
**Live Births: 2,527**

Percent of pregnant women who have been screened for Hepatitis B surface antigen.

72.4%

85%

## TITLE V FEDERAL - STATE BLOCK GRANT EXPENDITURES
